PROVINCIAL TABLE I.

AREA, HOUSES, AND POPULATION BY THANAS WITH VARIATIONS SINCE 1891.

THIS table shows the area, the number of towns and villages and of houses in, and the population of, each thana according to the census of 1901. The population in 1891 and the percentage of variation in the population during the last two decades are also noted, together with the number of persons per square mile in 1881, 1891, and 1901, and the number of persons per house in 1901. Except in the case of the district of the 24-Parganas, where the figures have been adjusted to allow for the inclusion of the Sundarbans, the areas of the thanas have been taken from those shown in the records of the Secretariat, and differ in some respects from those of the last census. The inclusion of the Sundarbans accounts for the difference in area in this table and that shown in Imperial Table I, which follows strictly the figures in use in the Secretariat. The population according to the census of 1891 has been adjusted to allow for changes in thana boundaries that have taken place since that census. The figures showing the number of persons per square mile in 1891 and 1881 are taken from Provincial Table I of the last census, except in a few cases where the areas have been altered, not on account of changes since the last census, but in order to make them agree with the areas shown in the Secretariat records.

Districts of which the external boundaries have been altered since the census of 1891.
